## Essential Papers on Addiction (Essential Papers on Psychoanalysis)

Drug abuse, alcoholism, compulsive gambling, and other destructive addictions plague our society. Theories of addiction locate its cause variously--in factors related to the substance, the addict's personality, or to the addict's environment. Arguments about effective treatment programs are fierce.

**Essential Papers on Addiction** presents the most important writing and the various sides of the debate on the psychoanalytic understanding and treatment of addiction. Daniel Yalisove outlines the history of the treatment of addiction and introduces important psychoanalytic concepts used in understanding addicts. The book includes case studies which illustrate the course of addiction and presents the work of the most influential theorists in the field.

Divided into eight sections focusing on historical work on addiction, psychoanalytic theories of addiction, transference and countertransference issues in treating addiction, psychoanalytic treatment for the addictions, psychoanalytic therapy and disease concepts, and psychiatric illness and addiction, this definitive volume includes contributions by the most experienced and renowned experts on the subject. Contributors include S. Freud, E. Glover, S. Rado, R. P. Knight, L. Wurmser, N. E. Zinberg, H. Krystal, D. Jacobs, R. Fine, J. Gustafson, C. L. Brown, M. L. Selzer, V. Davidson, J. Imhof, R.
