## **Worship Music in the 21st Century: Selecting Proper Music for Worship in Regards to Lyrics, Instrumentation, and Rhythm** Marius E. Marton

This book was born out of necessity and desire of the author to learn about proper church music in regards to melody, harmony, lyrics, instrumentation, and rhythm. The necessity is for clearer guidelines for pastors and musicians since there are many debates and divisions over worship music. The author desired a deeper understanding since he is a professional musician who was criticized for his choice of instruments, style, and genre. This book informs the reader of the musicological and theological aspect of worship music. It examines and explains the role of electric instruments and drums in 21st century worship. It helps music leaders make better decisions when it comes to building a church band and selecting proper music. This book also helps answering some myths people have about instrumentation, style, rhythm, lyrics and harmony in respect to theology, culture, and musicology vs. personal preference. This book will encourage today's musicians to explore, invent, develop, and enrich worship with their music. It will also help mend the gap between generations in regards to change, as good Christians will realize that drums were not invented by the devil and, if rightly used, could be a wonderful addition to the church band.
