A History of Modern Germany, 1840-1945 (v. 3) Hajo Holborn

This concluding volume of a three-volume reassessment of the last five centuries of German history develops the theme of power into what Gordon A. Craig calls a "masterly account of the dramatic, tragic and often shameful history of Germany in the most recent age" (*New York Times Book Review*). It deals with the period of nationalism and imperialism, from the abortive attempt of popular forces to found a liberal national state and Bismarck's German unification through the Prussian military monarchy to the expansionist programs of the age of William II and Hitler's world conquest.
