Batman v Superman: Dawn of Justice

Fearing the actions of a god-like Super Hero left unchecked, Gotham City's own formidable, forceful vigilante takes on Metropolis's most revered, modern-day savior, while the world wrestles with what sort of hero it really needs. And with Batman and Superman at war with one another, a new threat quickly arises, putting mankind in greater danger than it's ever known before.

The world of the growing DC Cinematic Universe has labeled Superman (Henry Cavill) a controversial figure after the events seen in Man of Steel, and while there are many in the world who see him as a superhero, there are many others who view him as an extreme threat. Bruce Wayne a.k.a. Batman (Ben Affleck) falls into the latter category, having been at ground zero during Supes' big climactic battle with General Zod and lost people during the catastrophe. As a result, he uses his incredible resources to do what he can to try and stop the perceived alien menace.
