From dust jacket notes: "Forget class, condition, past performance, jockeys, and the rest. The Dr. Z system will teach you how to beat the racetrack time after time after time, even if you know nothing about horse racing! Dr. Z's Beat the Racetrack is not a new handicapping method or a book of tips. Very simply, Dr. Z's system is based on proven scientific methods that originated in stock-market analysis, applied to horse racing for the very first time by William Ziemba and Donald Hausch. A mathematical model and its solution indicate how good a possible bet is, whether or not it is advisable to wager, and how much should be wagered given one's betting stake. A thorough reading of the racetrack tote board can provide steady profits with minimal risks on bets to win, place, or show. This business-management approach is easy to follow and will show profits from day one! The Dr. Z system has been tested by the authors themselves. This updated and revised edition of their classic work offers documented proof of how they and others have beaten the racetrack - over a period of years, at tracks throughout the United States and Canada, and even on special occasions such as the Kentucky Derby."
