Financial Markets and Institutions (5th Edition) Frederic S. Mishkin, Stanley G. Eakins

Recognizing that students need more than an abstract description of financial markets and institutions as they train to become managers successfully working in, or interacting with, the financial service industry, Mishkin and Eakins examine models and concepts through the eyes of a practicing financial manager to see not only why they matter, but also how they are used in the real world. In this way, students learn to place themselves in the role of decision-maker and envision how they might respond to problems and situations that will arise in their future careers. This Fifth Edition boasts expanded coverage of valuation concepts, more quantitative material, and a streamlined, finance-focused presentation. A careful examination of conflicts of interest, a concentration on the impact of new technologies, new data, and refreshing examples all serve to enhance and illuminate important concepts.
