Hackers & Painters: Big Ideas from the Computer Age (Chinese Edition) Ruan Yifeng

Hackers & Painters: Big Ideas from the Computer Age is a collection of essays from Paul Graham discussing hacking, programming languages, start-up companies, and many other technological issues. Topics include the importance of beauty in software design, how to make wealth, heresy and free speech, the programming language renaissance, the open-source movement, digital design, internet startups, and more. The ideas discussed in this book will have a powerful and lasting impact on how we think, how we work, how we develop technology, and how we live. It is an excellent book for programmers, entrepreneurs in Internet circle and those who are interested in the IT circle.
