"“When God created the universe, He also created the Metaphysical universe.” This paraphrase from Donald Walch’s book “A Conversation with God” aptly points to the intricate matrix of themes, ideas and concepts which formulate a complete world view of how things work. This is important because our individual belief system has a direct impact on all of the events and important episodes in our lives and generally affects the quality and longevity of life as a whole.

God as the omnipotent catalyst of the entire creative process does not interfere with our choices, but instead allows us to reap the benefits or suffer the consequences of our decisions. When we learn to raise our thinking to the higher consciousness of divine mind, the quality of life both individually and as a people will be naturally uplifted from an uncertain existence of coincidence and chance to a progressively stable and secure co-existence with the sustaining grace of God’s unlimited cosmos.

This book represents an attempt to explore some of the more relevant concepts of mankind’s symbiotic relationship to an immaculate Holiness in which we intuitively have always known to exist but through the daily grind of everyday living have somehow lost touch. The book is not amid at any particular religion, culture or ethic group but is a rather modest endeavor to discuss an array of universal themes and concepts common to us all.
