[(Dementia: A Global Approach)] [Author: Ennapadam S. Krishnamoorthy] published on (November, 2010) Ennapadam S. Krishnamoorthy

Growth in the incidence of dementia presents major challenges to global healthcare systems. As the burden of dementia in non-Western cultures grows, developing nations are expected to overtake developed nations in terms of dementia prevalence. Insights from developing nations and transcultural considerations are, nevertheless, neglected in the published literature. *Dementia: A Global Approach* fills this gap by integrating contemporary cross-cultural knowledge about dementia. Each section reviews the literature from the published, predominantly Western, perspective, contrasting it with empirical knowledge from non-Western cultures. Covering major clinical, epidemiological and scientific areas of interest, detailed consideration is also given to care-giving models across the world and management of patients who have migrated between regions. Enriched with personal insights from clinical experts across the globe, this is a key text for neurologists, geriatricians, psychiatrists, psychologists, epidemiologists and all those responsible for managing provisions of dementia services.
