Change? Yes. Hope? Not so much...

In the tradition of *Berlin Diary* and Orwell's *Homage to Catalonia* comes *The Indictment*. Author-turned-blogger R.F. Laird turns his prodigious talents to the worst administration in American history. From top to bottom, only InstaPunk.com takes in the full length and breadth of the Obama horror and puts it in its proper historical context. The Indictment not only tells what happened-- it also *makes sense* of what happened, and why.

For everyone who hasn't given up on America, this slim volume is an indispensable primer on the state of disunion so far.

You know he's bad. But do you know *how* bad?
