Handbook of Cross-Cultural Neuropsychology (Critical Issues in Neuropsychology)

Elaine Fletcher-Janzen, Tony L. Strickland, Cecil Reynolds

Handbook of Cross-Cultural Neuropsychology (Critical Issues in Neuropsychology) Elaine Fletcher-Janzen, Tony L. Strickland, Cecil Reynolds

Historically, relatively few investigations in neuropsychology have been sensitive to the analysis of cultural variables. This handbook will assist the neuropsychologist interested in cultural competence and help increase understanding of the link between cultural competence in assessment and intervention and good treatment outcomes.

The handbook authors provide an in-depth discussion of the current status of multicultural training in neuropsychology; specific information on diverse groups (age, gender, ethnicity, etc.), assessment instruments, and clinical populations (HIV infected, seizure disorders, brain injuries); and unique analysis of immigration patterns, forensics, and psychopharmacology.

This volume is the first to summarize the cultural data available in neuropsychology. A valuable resource for clinical neuropsychologists, school psychologists and rehabilitation professionals.
