ARCO Master the SAT provides complete test preparation for the SAT exam taken by students during their junior and senior years in high school. Most colleges require that students submit SAT scores as part of their application. Master the SAT prepares students for the exam with expert test-taking strategies and a detailed review of the major areas tested: mathematics and verbal reasoning. Students demonstrate their knowledge at the end of each chapter with review questions and again in full-length practice tests.

The book is filled with exercises, drills, and full-length sample exams that create a true-to-life testing experience. Test-taking techniques and skill-development strategies are teacher tested so that students and parents know to trust what they find inside. Bonus advice on college planning essentials—including application procedures and financial aid—is also provided. The CD version includes access to two full-length, online practice tests, plus easy-to-follow lessons with hundreds of additional practice questions.
