Science Fiction, Compact Edition: Stories and Contexts Heather Masri

Although excellent collections of science fiction abound, few have been prepared expressly for classroom use. Like its comprehensive predecessor, this compact version of Heather Masri's widely praised anthology *Science Fiction: Stories and Contexts* is designed to introduce students to some of the genre's major works, authors, themes, and contexts. International and diverse, canonical and recent, the judiciously chosen stories are chronologically arranged within chapters that represent six central themes of science fiction. The book's unique pedagogical features are critical and contextual documents that illuminate the stories and themes, with editorial apparatus that encourages students to think and write critically about how the genre reflects and affects culture. To expand teaching options, instructor's resources provide additional stories and pedagogical advice, while the TradeUp packaging option makes further works of science fiction available at a discount.
