## **How to Grow Great Marijuana Indoors: Easy Guide for Beginners** Jo Gardner

The primary reason for writing this beginner's guidebook is that a lot of readers feel the existing HOW TO books on Growing Marijuana Indoors are often quite complicated. They focus too much on complex setups and difficult procedures. On the other hand there are some books which are too simple and uncomplicated but are very incomplete and really missing much of the key facts. There is hardly anything in between these two extremes for the novice which is easy and yet practical. That is where this book fits in. This is a very informative doable guide which tries to give real-life instead of theoretical examples on what really works. The focus is on the practical hands on approach and taking into consideration the initial problems involved in starting the process. You can always read more complicated stuff after finishing this book. This book will teach you how to start in the real world of growing great marijuana. This book is simple and uses a straight forward conversational approach with step-by-step instructions keeping the novice growers needs. The methods used should give you quick yields throughout the year. There are lots of photos and illustrations to make it a true indispensable tool for the novice gardener. All the material needed are easily available from local hardware store and garden center. Plus there is a section on troubleshooting problems like pests and diseases. So for those beginners who really want to know how to grow an indoor garden from beginning to end, this is the book for you.
